1. The College anticipates that the remaining unanswered questions will be answered on September 18, 2023.

Note: Issues discovered during abatement are resulting in additions to the Scope of Work. As an example, where roof insulation was found to contain asbestos it was removed, and will now need to be replaced with new insulation prior to completing the ceiling work.

The full list of scope changes will be published along with the responses to the remaining unanswered questions.

As a result of the increase in the scope of work, the College is adding a new optional unescorted site visit, and another Q&A period.

2. A new optional opportunity to review the site in an unescorted site visit is being added on September 20, 2023 from 10:00 AM to noon. The Executive Offices are room number B3365.
