

Form B - Experience and Qualifications Form

1. Experience Requirements

The Supplier must have the following experience in order to be considered for award of the Contract:

The prime contractor (General Contractor)

The General Contractor must provide documentation listing a minimum of three (3) projects successfully completed within the last five (5) years for similar interior restoration projects. Listed projects must have minimum project construction cost of \$1,000,00,000 and be specific to mid-size commercial or heritage buildings.

- The General Contractor must provide two (2) examples of Heritage Projects. Heritage project is defined as similar work on a Municipally listed or provincially designated or federally recognized building. Provide Proof of Heritage Designation.
- The General Contractor must provide one (1) example of a project where a lift or elevator was installed.

Each listed project must include the following mandatory information:

- The content requested above;
- Project description, i.e. location, scope of work, project value, date of project start, date of project completion, bid price and final construction cost.
- Owner contact information; including both current email and phone number
- Consultant contact information (if applicable); including both current email and phone number
- Provide name and contact information of sub-contractors.
- A brief description identifying why this project is relevant to the current tender.
