

CONTRACTOR NOTIFICATION AND ACKNOWLEDGEMENT FORM

KPRDSB has identified the presence of various asbestos-containing materials (ACM) in the Building at _____ . An asbestos inventory report showing the locations and amounts of these materials is available for viewing from the AMP Facilitator.

The disturbance of ACM is to be undertaken by Abatement Contractors that maintain the appropriate insurance coverage and meet the requirements set out in the Asbestos Management Program (AMP).

The following activities may disturb asbestos materials. The AMP Facilitator must be notified of the following:

- Any removal, repair or disturbance of any ACM.
- Ceiling entry which may disturb sprayed-fireproofing or pipe insulation.
- Any other operation which may generate airborne asbestos from friable asbestos.
- The disturbance of any material excluded from the building's asbestos assessment report.
- Discovery of any material excluded from the survey.

Declaration by Contractor

The Contractor and their sub-contractors shall follow the work procedures as specified by KPRDSB's AMP and shall not disturb ACM without using proper procedures in accordance the provincial regulations and guidelines, and this AMP, including prior notification to the AMP Facilitator. All asbestos waste will be packaged, transported and disposed of in accordance with applicable regulations.

Notification of Asbestos Abatement

All Contractors and KPRDSB employees who perform work at facilities where ACM is present must be notified of the presence of the ACM if their work may bring them into contact, or close proximity to, the ACM. This notification may include custodial, security, telephone, computer cabling suppliers, mechanical maintenance contractors, etc. This notification shall be performed by the Facility Manager.

All contractors and KPRDSB employees who perform work, including telephone, computer cabling suppliers, electrical and mechanical contractors, etc., at KPRDSB facilities, where asbestos-containing spray-applied insulation is present above ceilings are to be notified that Type 2/Moderate Risk Procedures may be required for any entry to, or work within the ceiling space, determined by condition of material, scope of work, and potential for disturbance of the material. This notification shall be performed by the AMP Facilitator.

Contractors are to:

- Notify orally and in writing, an inspector at the office of the Ontario Ministry of Labour nearest the project site (Notice of Project), as per Regulation 278/05.
- Notify municipal Landfill site as per provincial regulations.
- Inform all sub trades of the presence of ACM identified in the contract documents.
- If suspect ACM not identified in the contract documents are discovered during the course of the work, the Contractors are to stop all work which might disturb the suspect ACM. The contractor is to notify orally and in writing the Consultant, Constructor, an inspector at the nearest MLTSD office, the Owner and the AMP Facilitator for the workplace.

By signing below, the Contractor acknowledges they have received, read and understand the requirements of KPRDSB's AMP.
