Questions and Answers

Q1. Masonry subcontractors are having difficulty finding the exact blocks. Can we replace them with standard 8-inch blocks?

A1. The contractor shall provide new cement/sand blocks to closely match existing block dimensions, profile, colour and joints as per design note #4 on drawing A-2.2. The block could be prefabricated off site with proper cement and sand mix and mold if it is not available in the current market.

All other terms & conditions remain unchanged.
