#### **Revision No. 1**

[09\\_Appendix\\_H\\_MRK-23007421-A0 Animal Services Centre - Add M01 - Addendum 6](#) has been added.

---

### **QUESTIONS & ANSWERS**

#### **Question 1:**

Please provide specification for downspouts and gutter

**Answer 1:**

All downspouts and gutter are prefinished aluminum and to match with existing building downspouts and gutter profile and color.

**Question 2:**

Please provide specification for metal flashing

**Answer 2:**

All flashing is prefinished metal flashing and to match with existing building metal flashing profile and color.

**Question 3:**

Please advise on the pavement makeup, there is no geo report attached. Should the contractor carry the Granular? Please include the granular specifications for the asphalt pavement and concrete-accessible sidewalk.

**Answer 3:**

Refer to tender specification Appendix A for Geotechnical report for granular type. For asphalt makeup refer to drawing A004.

**Question 4:**

They don't make sika floor 8200 anymore, is there something else to use?  
Also it doesn't say if it's just flakes being done to the floor, just says 3 coats but broadcasted.

**Answer 4:**

Sika floor Morritex Broadcast System is acceptable with 3-coat epoxy with decorative color broadcasted.

**Question 5:**

Can this tender closing be extended?

**Answer 5:**

Please refer to addendum 5 for closing date extension.

**Question 6:**

For the EPX Epoxy and LF (Leveling Floor) scope in this tender.

I could not find specific specifications regarding the LF (Leveling Floor), only the following was provided:

Note: 1.Exist. Floor finish and wall base to be demolished (m.G.A.T.)(typ.) gc is responsible to grind, smooth & clean the demolished floor & apply  $\pm 2$  thick leveling compound to accommodate new flooring. Refer to new floor finish plan for new floor finish materials

If you could please provide the LF specifications, it would be much appreciated.

**Answer 6:**

The leveling compound is part of the flooring preparation and cement base and is very minor. There is no particular specification for the item.

**Question 7:**

On the plan drawing it calls for what seems to be normal rebar in the section (2/E-101) Looks like they want stirrups encasing the duct bank and horizontally as well. Please advise

**Answer 7:**

Yes, as per detail, rebar shall fully encase duct bank.

**Question 8:**

On the Civil Work Specs, the description asks for Fiberglass Rebar. Have never seen this detail before and want to make sure it is correct. The fiberglass components are expensive and time-consuming to access. Please advise.

**Answer 8:**

No reference was made to fiberglass rebar in the drawings or specifications.

**Question 9:**

Is there BAS scope on this project? If so, please provide contact information of base building BAS vendor.

**Answer 9:**

There is no BAS scope of work required.

This Addendum is issued by the City of Mississauga and is in effect as of the Addendum Issue Date.
