

APPENDIX B3 – SEPARATE PRICE

The Board requires Bidders to provide Separate Prices for the items listed below. Failure to provide Separate Prices may render your Bid non-compliant and be rejected by the Board, in its sole discretion. The following Separate Prices for Work, if accepted by the Board, will result in an adjustment to the Bid Price submitted in **Appendix B1 – Pricing**. The Board may at its sole discretion accept or reject any of the Separate Prices proposed.

The Separate Prices submitted below are irrevocable and binding on the Bidder for the same period of time as the Bid Price, unless included in the Final Agreement.

The following price(s) are offered as additions or deletions to the Base Bid for the use of alternative methods and/or materials to those specified in the Bid documents.

All prices submitted take into consideration and allow for changes and adjustments in other Work included in the Bid Price as may be necessary to provide a finished and functional result.

Separate Prices include all overhead, profit and all relative charges of the Bidder and represent the actual cost to the Board for the Work. Separate Prices do not include Harmonized Sales Tax (HST).

The Separate Price(s) will not form part of the evaluation. Please note, you will be prompted to submit these separate prices upon completion of your submission within the Bonfire platform.
