20.0 Environmentally Responsible Procurement

- 20.1 The City of Toronto Environmentally Responsible Procurement Policy encourages Bidders to also offer products/services which are environmentally preferred. Environmentally preferred products/services offered must be competitive in cost, conform to specifications, performance requirements and, be suitable for the intended application as determined by the using department(s).
- 20.2 Environmentally preferred products/services are those such as durable products, reusable products, energy efficient products, low pollution products/services, products (including those used in services) containing maximum levels of post-consumer waste and/or recyclable content, and products which provide minimal impact to the environment.
- 20.3 An environmentally preferred product is one that is less harmful to the environment than the next best alternative having characteristics including, but limited to the following:
1. Reduce waste and make efficient use of resources: An Environmentally Preferred Product would be a product that is more energy, fuel, or water efficient, or that uses less paper, ink, or other resources. For example, energy-efficient lighting, and photocopiers capable of double-sided photocopying.
 2. Are reusable or contain reusable parts: These products such as rechargeable batteries, reusable building partitions, and laser printers with refillable toner cartridges.
 3. Are recyclable: A product will be considered to be an Environmentally Preferred Product if local facilities exist capable of recycling the product at the end of its useful life.
 4. Contain recycled materials: An Environmentally Preferred Product contains post-consumer recycled content. An example is paper products made from recycled post-consumer fibre.
 5. Produce fewer polluting by-products and/or safety hazards during manufacture, use or disposal: An EPP product would be a non-hazardous product that replaces a hazardous product.

It is imperative that all suppliers be aware of the terms of the policy and understand the various situations, which are clearly a conflict of interest, to ensure that a supplier does not place any City employee in a potential conflict situation, when carrying out their respective business activities with the City of Toronto.
