Question 1:

Hello. As per the contract documents it says for Removal and Reinstatement of all Plumbing Fixtures and Gas lines; however, we just want to double check whether we need to install any New sinks because of any defectives one? Please let us know.

Also, can we remove all the sinks in 1 visit and then reconnect them in 1 visit or will this be Phased? Will multiple visits be required.

Also, is this the same for the gas work?"

Answer 1:

The contractor is to reuse all existing fixtures. Contractor is to be careful when removing so as not damage. It's up to the contractor as to how they want to do removals and reinstall services and fixtures.

All other terms and conditions shall remain the same.
