

We have reviewed the tender documents including plans, specifications and drawings for the \_\_\_\_\_ - \_\_\_\_\_, located at \_\_\_\_\_, (collectively the “**Tender Documents**”) which were submitted by: \_\_\_\_\_ and find the submitted Tender Documents \_\_\_\_\_ are in agreement and general conformance with our specifications and instructions for the use of the products supplied by us. We also verify that our products are appropriate and adequate for the roof replacement or restoration work setout in the Tender Documents.

We warrant that the materials detailed in our attached material data sheets meet or exceed the specified material standards. Our System is tested and meet the requirements of **CSA A123.21:20. (Standard test method for the dynamic wind uplift resistance of membrane-roofing systems)**

In our opinion, the contractor: \_\_\_\_\_ (the “**Contractor**”) has the necessary resources, labour, equipment, and expertise to perform the work in the Tender Documents and is an approved applicator for the system specified. The Contractor has a minimum of three project references utilizing the specified materials on public facilities.

If the Contractor is the successful bidder, we will meet with the Contractor while the work is in progress to review specific requirements and inspect our product's application. We will advise the project consultant and Contractor in writing of any recommendations provided to the Contractor to adjust the application methods to ensure that a successful application under the installation conditions can be achieved.

We will provide daily quality assurance observations performed by one of our representatives or one of our approved inspectors and a minimum of four (4) progress photographs will be taken daily to confirm specification compliance. The observation reports will be submitted weekly to the City and to the roofing consultant on file.

In accordance with the signed contract documents, we shall review the detail drawings issued as part of the tendered specification and verify that the subject details meet or exceed our design requirements. We further agree to issue and honour all manufacturer's warranties and guarantees as requested under the signed contract documents. -

A sample of our warranty is attached. The subject warranty is a **minimum** twenty (20) year FULL warranty covering all labour and materials installed under the contract.

As part of our warranty program, we shall complete roof inspections, general housekeeping services and preventative maintenance during year two (2), year five (5), year ten (10) and year fifteen (15) of our warranty at no cost to the City.
